

Date: 22/01/2026

To Whom It May Concern,

This is to certify that **Bhargav Kumar Saha**, bearing the email ID **bhargavsah2026@gmail.com**, has successfully completed a **Two-Month Project Internship** at **HEPro (AI Product Development – HEPro AI / HEPro+)**, under the **Cloud Engineering** domain, from **24.11.2025 to 22.01.2026**.

During the internship period, **Bhargav Kumar Saha** worked as a **Cloud Engineering Intern** and actively contributed to the design, development, and deployment of a **serverless web application on Amazon Web Services (AWS)**. The work was aligned with **HEProAI**, a next-generation AI-driven mentoring and career acceleration platform, focusing on scalable, secure, and cost-efficient cloud-native solutions.

Key Responsibilities Undertaken

- Designed and implemented a **serverless web application architecture** using AWS managed services to ensure high availability and scalability.
- Developed backend logic using **AWS Lambda**, integrated with RESTful APIs through **Amazon API Gateway**.
- Configured **cloud-based storage and data handling** using AWS services to support application workflows.
- Implemented **IAM roles and security best practices** to manage access control and permissions.

Major Project(s) Completed: Project Title: *Design and Deployment of a Serverless Web Application Using AWS*

Tools / Technologies Used: AWS Lambda, Amazon API Gateway, Amazon S3, AWS IAM, AWS CloudWatch, Python, HTML/CSS, JavaScript, REST APIs, Git.

Throughout the internship tenure, **Bhargav Kumar Saha** demonstrated Strong learning agility and ownership mindset, effective communication, teamwork & time management and ability to apply theoretical knowledge to real-world applications. We appreciate the contribution to HEPro's mission of strengthening AI-enabled education, talent development, and future-skills transformation.
